

The supplies you'll need are:

Notebook

glue

Pictures you want to use

scissors

You can find the pictures I used on my Pinterest page I'll leave a link to it on my blog.

Cut out all the pictures.

TIP: put the cut out pictures in some sort of container so you won't lose some of them.

When you've cut them all out lay them all out on your note book to figure out how you want it to look.

When your happy with how it looks grab your glue and glue the pictures down.

TIP: Start with the pictures on the outside and then work your way to the middle of the notebook.

When you've glued all the pictures down it can curl a bit because of the glue if you something heavy on the notebook it will flatten out when its dry.

If you want to secure your pictures you can add some type of sealer on it (mod podge).
