

DIY Wand Pencils

A perfect DIY for back to school

The supplies you'll need are:

A glue gun

Glue sticks

Brown and black acrylic paint

pencils with or without an eraser

a paint brush

Heat up your glue gun, when its ready to use make different designs on your pencils. You can make swirls, lines, dots anything you want.

Let the glue dry/harden before you start painting them.

When they're dry paint them brown or black

If you want to add some extra detail to the pencils use some gold or silver paint and a dry brush and brush it gently on the already brown or black painted pencil.

And now your wand pencils are done!

It's a really easy and quick DIY and perfect to do if you're bored.

Have fun making these pencils!
