

Niffler note book

The things you'll need are:

A pencil

a (plain) note book

paint brushes

An eraser

the Niffler picture

fine liner (optional)

Black, white, yellow, brown, skin, silver and gold acrylic paint

To make skin colored paint you mix white with a bit of brown and pink and a tiny bit of yellow. For the Niffler I added a little bit more brown than pink.

Start with drawing the Niffler design onto the front of the note book.

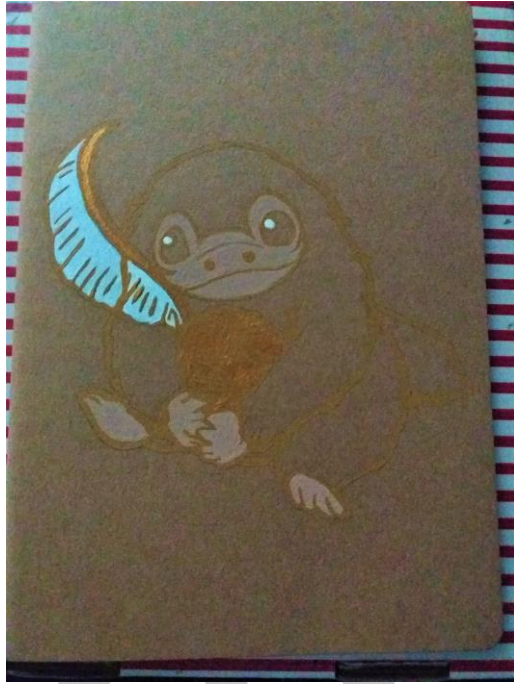

Mix some yellow paint with a tiny bit of brown and a bit of gold paint (gold is optional) and fill in the outline.

Fill in the face and paws with the skin colored paint.

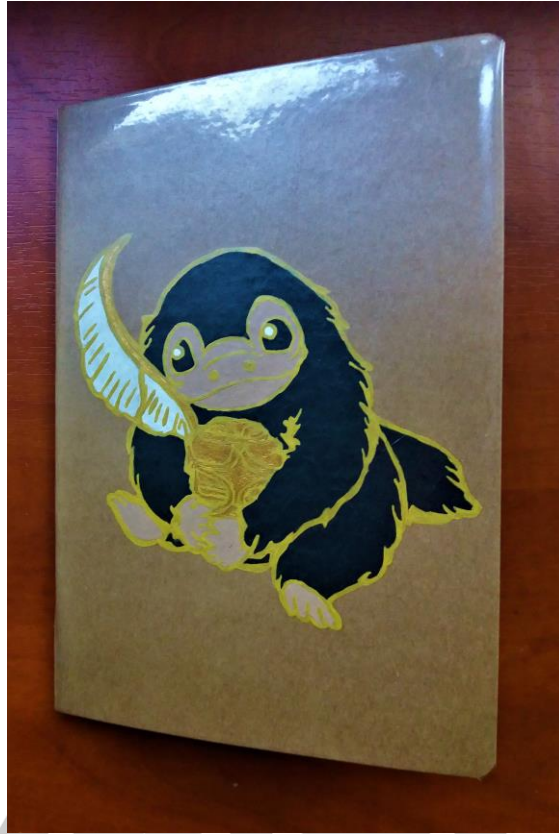

Fill in the snitch and a part of the wing with gold paint. (if you don't have gold paint you can fill the snitch in with yellow paint)

Mix some white paint with a bit of silver paint and fill in the wing. And fill in the white part of the eyes.

At last fill in all the black parts. If needed touch up the outline. If you want you can also outline the Niffler with a fine liner

To protect the paint and keeping it nice I covered the note book with clear self-adhesive book covering. This is not necessary but I do recommend it if you want to keep it looking nice the whole school year.

And now your Niffler note book is done!!

I hope you have fun making this note book!!!

And have magical school year <3
