

Skiving Snackbox

The thing you'll need are:

A teaspoon

Flavoring oils of your choice

Thin cardstock

Lip balm labels

Dark green, purple, white, light blue, yellow and orange eyeshadow or lipstick.

Clear tape

beeswax

4 lip balm pots

baking paper

a bowl

coconut oil

aluminum foil

double sided tape

vitamin E oil (optional)

Cover the labels in clear tape on the back and the front side. Put some double sided tape on the back of the labels and cut them out. You can put the labels on the pots now or when the lip balms are done.

Cut out 4 pieces of card stock that are the same size of the diameter of the pots. Cover the cardstock with aluminum foil and then with baking paper.

Fainting Fancies

Add 2 teaspoons of coconut oil, 1 teaspoon of beeswax, 2-3 drops of flavoring oil (I used orange) and 3 drops of vitamin E oil (optional) in a bowl and melt it down in the microwave. When everything is melted add a little bit of yellow eyeshadow or lipstick. Put the little divider you've made in the middle of the lip balm pot and carefully pour the lip balm mixture in one of the 2 sides.

When the first half is completely set repeat the steps but instead of yellow eyeshadow or lipstick add some orange eyeshadow or lipstick. When you're ready to pour it in you can remove the divider and pour the second half in.

Puking pastilles

Add 2 teaspoons of coconut oil, 1 teaspoon of beeswax, 2-3 drops of flavoring oil (I used lemon) and 3 drops of vitamin E oil (optional) in a bowl and melt it down in the microwave. When everything is melted add a little bit of purple eyeshadow or lipstick. Put the little divider you've made in the middle of the lip balm pot and carefully pour the lip balm mixture in one of the 2 sides.

When the first half is completely set repeat the steps but instead of purple eyeshadow or lipstick add some dark green eyeshadow or lipstick. When you're ready to pour it in you can remove the divider and pour the second half in.

Nosebleed nougat

Add 2 teaspoons of coconut oil, 1 teaspoon of beeswax, 2-3 drops of flavoring oil (I used peppermint) and 3 drops of vitamin E oil (optional) in a bowl and melt it down in the microwave. When everything is melted add a little bit of red eyeshadow or lipstick. Put the little divider you've made in the middle of the lip balm pot and carefully pour the lip balm mixture in one of the 2 sides.

When the first half is completely set repeat the steps but instead of red eyeshadow or lipstick add white eyeshadow or lipstick. When you're ready to pour it in you can remove the divider and pour the second half in.

Fever Fudge

Add 4 teaspoons of coconut oil, 2 teaspoon of beeswax, 4-6 drops of flavoring oil (I used lime) and 3 drops of vitamin E oil (optional) in a bowl and melt it down in the microwave. When everything is melted add a little bit of light blue eyeshadow or lipstick. Pour the mixture into the lip balm pot.

When the blue layer is completely set add 2 teaspoons of coconut oil, 1 teaspoon of beeswax, 2-3 drops of flavoring oil and 3 drops of vitamin E oil (optional) in a bowl and melt it down in the microwave. When everything is melted add a little bit of red eyeshadow or lipstick. use the back of a teaspoon or a dropper to make dots onto the blue layer.

And now your skiving snackbox lip balms are done!

I hope you have fun making the lip balms!!
