Hogwarts uniform note book

The things you'll need are:
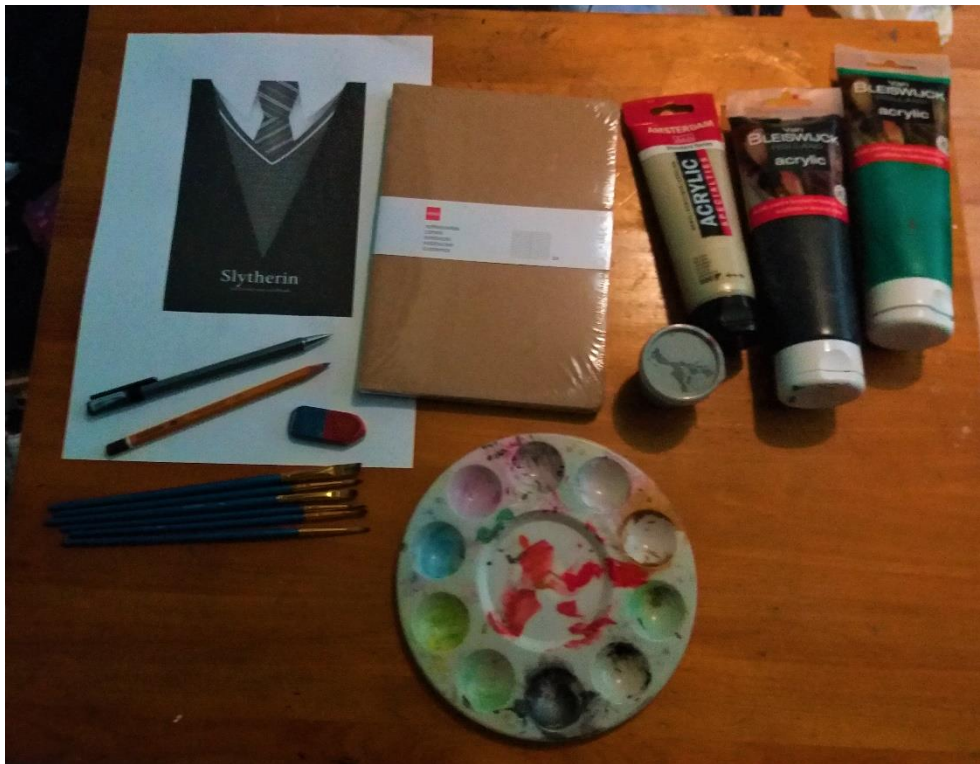

|	
A plain note book	paint brushes
A pencil	the template
An eraser	acrylic paint (grey, black and your house colors)

Trace the design of the uniform onto the note book.

Fill in the silver (or gold or bronze) parts in with your silver paint and let it dry.

Then fill in the green (or red, yellow, blue) parts in with your green acrylic paint and let it dry.

Fill in the 2 'triangles' in with white paint, mix a tiny bit of black with some white to make a very light grey color and fill in the other part that has to be light grey. Next fill in the darker grey parts of the uniform.

When everything is dry, paint the rest of the note book black and also the back.

To protect the paint and keeping it nice I covered the note book with clear self-adhesive book covering. This is not necessary but I do recommend it if you want to keep it looking nice the whole school year.

And now your Hogwarts uniform note book is done!!

I hope you have fun making this note book!!!

And have magical school year <3
