House Themed Ornaments

The things you'll need are:

Colored paper	a pencil	house crest print out
Double sided tape	plastic ornaments	
Some type of string	an exacto knife	
Scissors	a ruler	

Slytherin = green + grey colored paper

Hufflepuff = yellow + black colored paper

Ravenclaw = blue + grey colored paper

Gryffindor = red + yellow colored paper

Mark on your paper how long and thick you want the strips to be. Mine where ½ cm thick and 8 cm long. Do this to both of your colors.

Cut out the strips using either a pair of scissors or an exacto knife and ruler.

Grab your scissors and curl the paper strips.

Now fill up the ornament with the curled paper strips. To get an even between the red and yellow curls between each side of the ornament what I did was yellow curl, red curl, yellow curl, etc.

When both sides are filled up you can close them up.

Grab the print out of the house crests and put some double sided tape on the back of it. You can also add some clear tape on top of the crests but that is up to you. When you've done that cut them out.

Now you can stick them on the ornaments.

Now grab your string of choice and you can hang them up in your Christmas tree or somewhere in your room or house.

And now your house themed ornaments are done!

Have fun making these ornaments!!
